PROFESSIONAL SUMMARY

Results-driven React Native Developer with **3+ years** of experience in designing and developing mobile applications. Proficient in React Native, **Redux**, **Hooks**, and third-party API integrations. Expertise in **payment gateways**, **chat integration**, **video calling**, and **Firebase** implementation. Strong understanding of app performance optimization, deployment, and analytics.

TECHNICAL SKILLS

- **Mobile Development:** React Native, ReactJS, Ionic
 - **Programming Languages:** JavaScript, TypeScript
 - **Development Tools:** Visual Studio Code, Android Studio, Xcode
 - **Styling & UI:** CSS
 - **Version Control & APIs:** GitHub, Postman, Swagger
 - **Other Skills:** Requirement Analysis, Firebase, REST API
-

PROFESSIONAL EXPERIENCE

OpenXcell Technolabs Pvt. Ltd.

Software Engineer - React Native (April 2024 - Present)

- Designing and developing robust, scalable, and efficient mobile applications using React Native.
- Writing clean, well-documented, and maintainable code.
- Testing, debugging, and optimizing app performance for better user experience.
- Keeping up-to-date with the latest trends and emerging technologies in React Native.
- Collaborating with cross-functional teams to ensure timely project delivery.

Ebizzinfotech

Software Engineer - React Native (January 2022 - March 2024)

- Developed and maintained mobile applications using React Native.
- Integrated REST APIs, third-party services, and Firebase.
- Optimized app performance and ensured smooth UI/UX.
- Implemented payment gateway integrations such as Google Pay, Apple Pay, and Stripe.

PROJECTS & CONTRIBUTIONS

1. BHL - Transport Management System - [Download here](#)

- Developed a responsive and lightweight UI for tablets.
- Implemented role-based access control.
- Integrated APIs and custom search/filter functionalities.
- Added camera functionality for scanning slips & QR codes.
- Managed export data functionality.

2. HealthiWealthi™ - Health Coaching for Everyone - [Download here](#)

- Integrated Sendbird chat with custom components.
- Developed scheduling for personal & group meetings.
- Implemented a multi-language feature (5 languages).
- Integrated Stripe for membership subscriptions.
- Enabled social logins (Google, Apple, Facebook) and bank details for global users.

3. Pianohack - Play by Ear - [Download here](#)

- Implemented ear training with sound-based piano number recognition.
- Added animations using React Native Animated API.
- Integrated Firebase chat and push notifications.
- Deployment links: [iOS link](#)

4. Vove - Dating & Friends Chat - [Explore here](#)

- Created custom animations using the React Native Animated library.
- Built a responsive UI and ensured a smooth user experience.
- Integrated Firebase OTP verification & Socket.io chat.

5. Mobile Gym - Workout Anywhere - [Download here](#)

- Integrated gym exercise videos & workout animations.
- Implemented Firebase database and notification settings.
- Redesigned the entire app from the existing codebase.

6. MotorScan App - [Download here](#)

- Learn the Basics of Ionic for project requirements with React Ionic in Typescript
- Implemented Firebase analytics and notifications.

7. Transfergratis: Money Transfer App - [Download here](#)

- Transfergratis, the safe, easy, and Fast way to transfer money with no fees to AFRICA
